

## BAM TECHNICAL RIDER

### STAGE:

Minimal width required:	4 meters
Minimal depth required:	3 meters
Minimal height required:	2,5 meter.
Black box:	Black floor, black backdrop, black sides.
Darkness:	Full darkness.

The venue must provide four sandbags (weight) for the set. One technician is required per venue for the set-up.

Set-up:	3 hours
Tear-down/Strike:	45 minutes
Our team on the road:	3 people
Length:	30 minutes
Audience: max.	80 spectators

**SPECTATOR SEATING:** The audience must be on the same level as the set, on the floor or near the floor. The kids sit on mats and adults sit with them or around them on chairs or benches. Ideally, small risers are set up for the third row and on.

**LIGHTING:** The Producer provides the show lighting. We require 3 wall direct outlets. The Festival must provide lighting for the audience.

**SOUND:** The show is acoustic. No sound system is required.

**DRESSING ROOM:** Suitable for four people with coffee, tea & water available upon load in and throughout the day

The venue is responsible for providing at least one staff members for welcoming audience members at the door.
